

ISAKOS

INTERNATIONAL SOCIETY OF ARTHROSCOPY,
KNEE SURGERY & ORTHOPAEDIC SPORTS MEDICINE

*A combined meeting was called in Hong Kong in 1995 chaired by K.M. Chan, M.D., to which the attendees were the Board of Directors of the **International Arthroscopy Association** and the Board of Directors of the **International Society of the Knee**. It had become clear for most that the two societies could achieve so much more working together as they already had so many common objectives.*

The meeting was held with the intention of finalizing the merge of the two societies and so, to that effect a Nominating Committee was created consisting of and in no particular order:

Kenneth E. DeHaven, M.D., USA

Robert E. Leach, M.D., USA

Freddie H. Fu, MD., USA

Ramon Cugat, M.D., Spain

Barry Tietjens, F.R.A.C.S., New Zealand

*And so, the **International Society of Arthroscopy, Knee Surgery & Orthopaedic Sports Medicine** was created and it has gone from strength to strength ever since.*
